

Addendum 3 to Town of Callahan, Florida Design Build Project

Revision to Design Criteria Package:

The scope of work:

- 1.0 Project Overview, will no longer include installation of 2 rail spurs (switches), one for CSX Transportation and one for Norfolk Southern Railway.
- 2.0 Coordination with both CSX Transportation and Norfolk Southern Railway for the design and permitting of the two rail spurs is no longer a requirement.
- 3.4 Rail Spur Switches is deleted in its entirety.
- 5.3 Rail Spur Switches is deleted in its entirety.

This revision is made necessary because the end user did not comprehend the Railroads requirements that have to be in place before spurs and switches may be installed.

Information Sharing:

We are expecting information from the Site Plan that is being completed shortly that may help in your design, for example Geo-Tech of the terminus of the lines and the water tower and lift station. If you wish to receive this information, please register an email address with Mike Williams at pwd@townofcallahan-fl.gov and he will forward to you when he receives it.

Please monitor the Town website townofcallahan-fl.gov for further addendums

Questions should be addressed pwd@townofcallahan-fl.gov
